Company name: Paw Vida Holistic Therapies

Assessment carried out by: Lindsay Cope

Date of next review: Ongoing

Date assessment was carried out: 23/06/20

Date of Update: 27/09/20

Date of Update: 30/04/21

What are the hazards?	Who might be harmed and how?	What are the measures being taken to control the risks?	Who needs to carry out the action?	When is the action needed by?	Done
Transmission of Coronavirus from therapist (LC) to dog and/or owner whilst working on a mobile basis.	Dog, dog owner and other household members are at risk of contracting COVID-19. And subsequently, any person they have had close contact with between the end of the session and the start of	LC is fully aware of the range of symptoms associated with COVID-19 and will postpone all upcoming appointments if any one of the symptoms occurs. LC will get tested in this instance and await the result and follow guidance on self-isolation before recommending any appointments. LC will utilise Test and Trace in the event of a positive test in order to contact all close contacts. Appointments to take place in an	LC and Owner	Before, during and after each treatment session.	Ongoing
